MyAberdeen Enhancements in October 2021

Updates Applied 7th October

Ultra: Submission Receipt

This new functionality in assignments provides students with a unique tracking number that confirms their submission. A window with the tracking information will appear to students after they submit their work. They can also receive an email with that information if they have a registered email and download a similar text file to keep for their records (see Figure 1).

Ultra: Rubric Criterion Increase

Rubrics can now have up to 15 columns and rows, previously limited to 10 (see Figure 2).

mycourse New Rubric 8/17/21		Intro to Philosophy Class Rubric						
Rubric Type: Percentage •		Rubric Type: Percentage •						
Criteria	Satisfactory	Criteria	New Level 13	New Level 14	New Level 15			
Criterion 1 Add up to 15 criteria for columns or rows in your rubric.		Align with goals Criterion 14	25%	13%	7%			
Got it			Type a description	Type a description	Type a description			
Criterion 2 100%	75%	6% of total grade						
Type a descrip	tion Type a description	Align with goals						
25% of total grade		Criterion 15	25% Type a description	13% <i>Type a description</i>	7% Type a description			
Align with goals		6% of total grade						
Criterion 3 100% Type a descrip	75% tion Type a description	Align with goals						

Ultra: Rich Text Editor Add table function

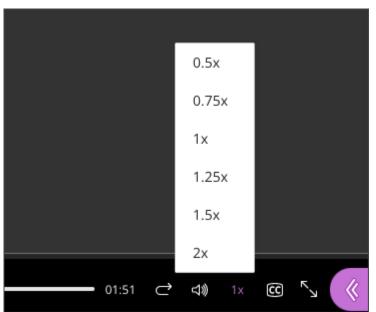

The rich text editor in Ultra now has an Add Table function allowing users to organise tabular data in a more accessible way (see Figure 3).

	Ax- II- ⊑- ¶- ⊐ & '	₺ ₡ ⊕-	38 EE (2) EB	🗄 🛱 🖾 🖬 🗹 Header Row 🗹 Header Column 🛈			
	5 x 8 Table			Option 1	Option 2	Option 3	Option 4
			ltem 1				
ord count: 0			Item 2				
		Cancel Save	Item 3				
			ltem 4				
			Item 5				
	Insert Table		ltem 6			2	
			Word count: 20				

Updates Applied 14th Oct – Collaborate (Ultra and Original courses)

Adjust recording playback speed

Users viewing Collaborate recordings can now adjust the speed of playback to suit their needs. With this feature, viewers can choose between a range of speeds (0.5x, 0.75x, 1x, 1.25, 1.5, 2x) to playback recordings (see Figure 4).
