Thinking about a future trade deal with the United States, the USA are likely to ask for Britain to make some changes to our rules, quotas or tariffs to make American imports to Britain easier and in exchange Britain will ask for the USA to make changes to their rules, quotas or tariffs to make British exports to the USA easier. Below are some changes that that people have suggested that the USA might ask for, in each case, please say whether you think it would or would not be acceptable as part of a trade deal with the USA?
