

Pediatric Surgery for Ugandan Children - The Ministry of Dr. Geoff Blair and the team from BC Children's Hospital

Background: Uganda has more children than Canada. Yet there are only 5 pediatric surgeons for that country. Canada has more than 70 surgeons!

Our **Dr. Geoff Blair** is returning to Uganda to do another '**Pediatric Surgical Camp**': The team of 11 surgeons, anesthetists, nurses, technical support person and resident surgeon will go to Uganda in February for 2 weeks plus to do as many surgeries as they can - **Dr. Blair says they had to stop in previous camps when they ran out of basic medical supplies.**

This program has also trained Uganda pediatric surgeons and will continue with another surgeon coming to BC in July for training.

One box of the basic medical supplies costs **\$1650.00**

We can support this project with our donations:

Go to the BC Children's Hospital Foundation site – the link can be found at drmt.ca (under Accompaniment/Outreach). All donations to the Children's Hospital Foundation page will go to the camp.
