6.2. Division of fur production on sale at Saga Furs Oyj by local member associations in 2020/2021.....	34
6.3. Fur production and value of sales in municipalities with four or more farms in 2020/2021.....	38
6.4. Significance of fur farming to municipalities tax revenue, estimate 2021.....	41
6.5. Change in the shares of fur farm size classes (based on the skin volume) 2013–2021.....	42
6.6. Size classification of fur farms by the amount of furs delivered to Saga Furs Oyj (Finnish furs).....	43
6.7. Number of local member associations that have delivered furs to Saga Furs Oyj by fur type in 2019/2020 and 2020/2021.....	45
7. DOMESTIC CUB PRODUCTION AND CUB YIELD	51
7.1. Number of cubs born in fur industry, 1980 - 2021 (1000 cubs).....	52
7.2. Number of cubs born in whole country 2008-2021 (cubs/mated female).....	54

In 2021 the value
of fur imports was
362 million euros

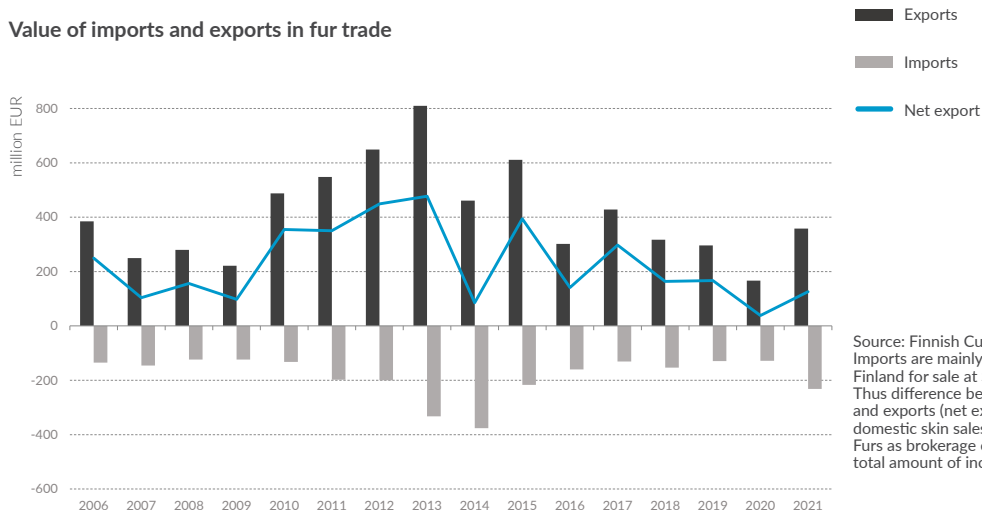

1 IMPACT OF FUR FARMING ON THE NATIONAL ECONOMY

- There are 700 places of business in Finland
 - Finnish Fur Breeders' Associations – FIFUR's local members associations have 581 member farms, with about 700 fur farms
- Fur industry brings Finland significant export income annually
- Value of exports was 362 million euros in 2021; value of exports was at its peak at 810 million euros in 2013
- Export of fox and mink furs is roughly equal in volume
- China is the most important export market
- Fur farming employs directly 3 185 workers
- Fur farming brings 87 million euros to Finland in form of taxes and social insurance contributions

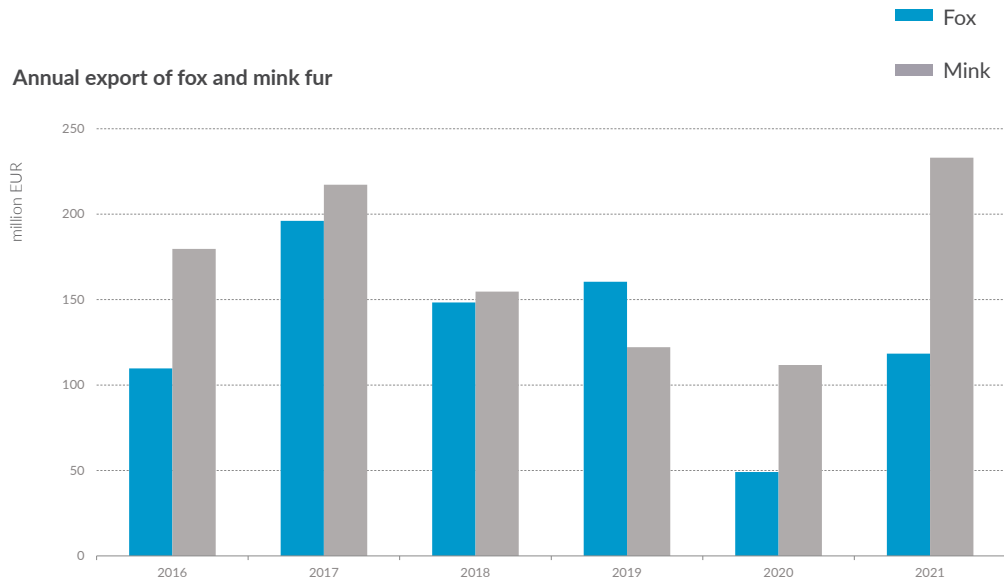

1.1 The overall economic importance

Value of imports and exports in fur trade

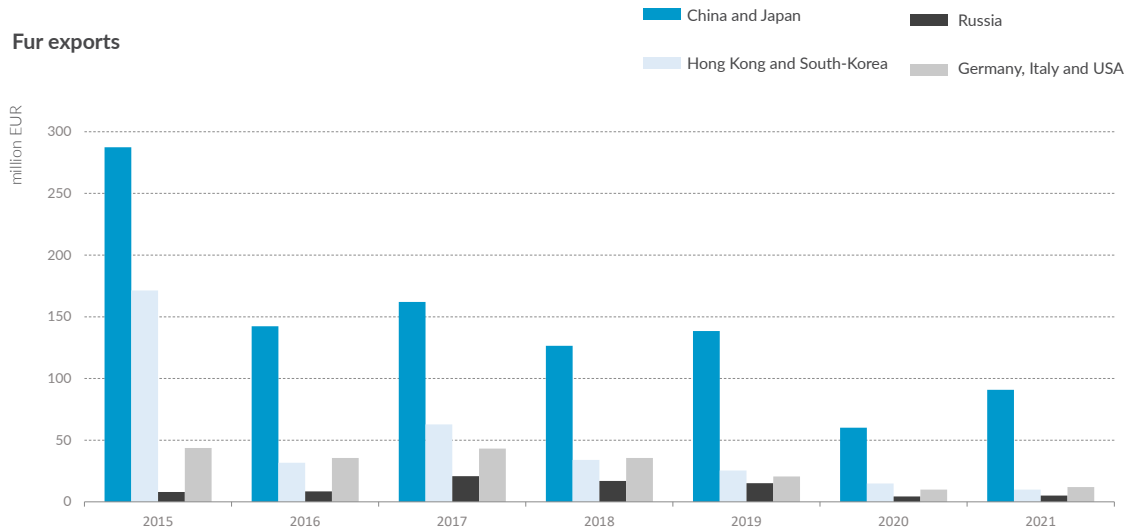

Source: Finnish Customs. Imports are mainly furs, which come to Finland for sale at Saga Furs' auctions. Thus difference between imports and exports (net exports) describes domestic skin sales revenue and Saga Furs as brokerage commissions the total amount of income received.

Annual export of fox and mink fur

Fur exports

1.2. Turnover / Wage amount by industry

Attitude towards certified domestic fur farming

50%

takes very or fairly positive view

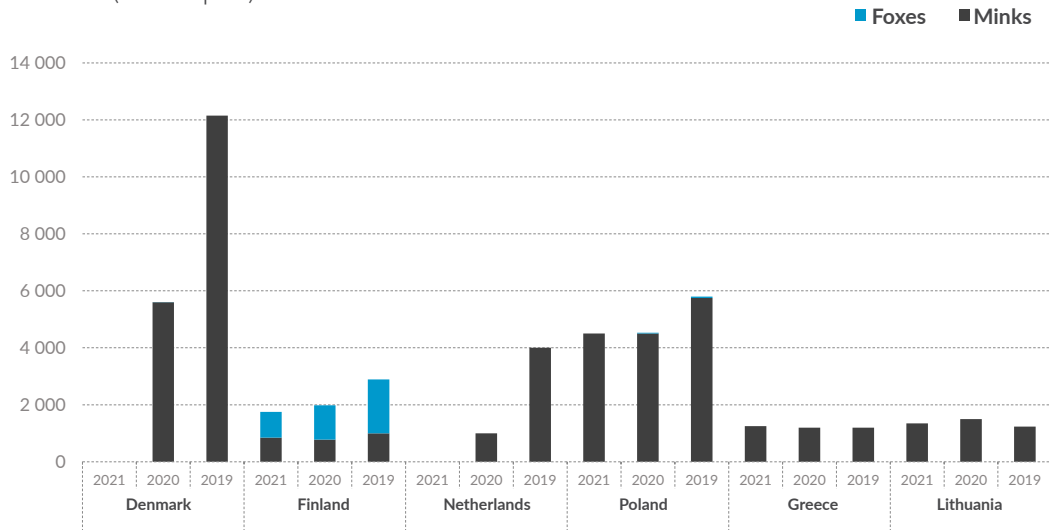

Finland is the second
largest fur producer
in Europe

3 FINLAND AS A FUR PRODUCER IN EUROPE

- Poland is the largest producer of mink skins in Europe.
- Finland is the largest producer of certified fox skins in Europe and the second largest in the world after China.
- China is the largest producer of furs in the world in terms of volume.
- Finland is currently the only country in Europe where it is legal to breed Finnraccoon, which is considered an invasive species. The European Commission granted Finland and the members of FIFUR an exemption for breeding Finnraccoon for at least 30 years beginning from February 2019.

Finnish Fur Breeders'
Association FIFUR
represents the industry
comprehensively

5 INFORMATION ON THE ASSOCIATION AND ITS MEMBERSHIP

- The member associations of FIFUR have altogether 581 members with about 700 farms
- The largest member associations are Pohjois-Suomen Turkiseläinten Kasvattajat ry (PSTK) and Svenska Österbottens Pälsdjursodlarförening rf (SÖP)
- In recent decades the number of fur farms has decreased and production has concentrated
- The average size of farms has grown

Membership count of FIFUR's member associations 2021

Member association	Membership count
Svenska Österbottens Pälsdjursodlarförening rf (SÖP)	305
Pohjois-Suomen Turkiseläinten Kasvattajat ry (PSTK)	252
Uudenmaan-Hämeen Turkiseläinten Kasvattajat ry (U-H)	8
Savo-Karjalan Turkistuottajat ry (S-K)	5

2011	959	2020	632
2012	960	2021	581

Fur production has
concentrated in
Ostrobothnia
and farm sizes are
growing rapidly

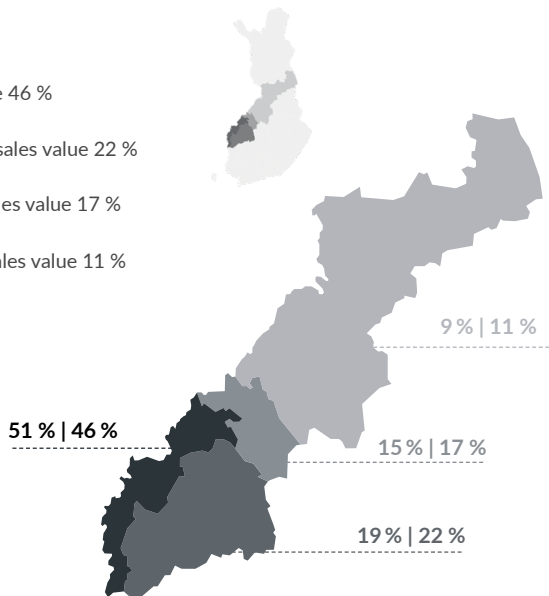

6 FUR PRODUCTION IN FINLAND

- Pohjois-Suomen Turkiseläinten Kasvattajat ry (PSTK) and Svenska Österbottens Pälsdjursodlarförening rf (SÖP) are largest of the local members associations. PSTK produces 52 percent and SÖP 43 percent of skins produced in Finland.
- Farm size has grown rapidly from 2013 to 2019. It decreased 2020 due to Covid-19 and grew again in 2021.
- Portion of farms producing over 10 000 mink skins was 29 percent in 2021. In 2020, the share was 6 percent.
- Portion of farms producing over 10 000 blue fox skins was 27 percent in 2021. In 2020, the share was 4 percent.

The fur industry brings income to Ostrobothnia

- Ostrobothnia's share of farms 51 % | share of sales value 46 %
- Southern Ostrobothnia's share of farms 19 % | share of sales value 22 %
- Central Ostrobothnia's share of farms 15 % | share of sales value 17 %
- Northern Ostrobothnia's share of farms 9 % | share of sales value 11 %

In addition to the four provinces of Ostrobothnia, there are member farms in the Finnish Fur Breeders' Association in all Finnish counties and provinces.
