Very professionally presented - obvious excellent experience & knowledge with real examples to learn from" **Sellafield**

TPM Masterclass

A foundation of operational excellence

Based on the new industry-leading publication:
TPM: A foundation of Operational Excellence

ABOUT THE COURSE

This 2 Day Practical Masterclass has been developed to support organization's develop a deep understanding of **Total Productive Maintenance** and how this can support an organization's Asset Reliability. The programme is designed to mix theory with practical activities—ensuring real life experience delivering TPM improvements. The workshop explores the key principles of TPM and provides practical guidance on how to develop and deploy an effective, systematic approach. You will look at the lean thinking tools, systems, leadership and engagement that will support sustainable change. You will also gain an understanding of how TPM aligns with systems thinking and the ideal behaviours implicit in The Shingo Model™.

ABOUT OUR HOST SITE

MOLEX brings together innovation and technology to deliver electronic solutions to customers worldwide.
